REDS BEGIN SOUTHWARD DRIVE

Three-Pronged Offensive Against Railway Cities REDS CAPTURE

Canton, July 18.

Nationalist military sources believe the preliminary phase of the Communist offensive on South China has started.

Financial Conference Ending

London, July 18. The conference of Commonwealth finance ministers, after reaching tentative decisions of short term and medium term policies on sterling area economy to meet the problem

of dollar shortage, is expected

to end today on the fifth day of intensive discussions. The unjor short term decision | expected, an immediate go slow the coming, two months, pending the formation of a more definite

monwealth quarters today. India's Finance Minister, Dr. John Matthal, played an important part in the conferences. Apart from his first day's able analysis of the economic "crisic" of the area, Dr. Matthal stressed what was no doubt the common feeling of the under-developed Commonwealth countries, like Pakistan and Ceylon, that sacrifices to tide over the crisis; could be effective only if they - were proportionale to the capacities of the countries to

bear the burden.

It is understood that he pointed out to the conference that in trimming national expenditure, the main consideration, in the case of developed countries like Britain or Australia, was one of maintaining existing standards of living. avoiding unemployment and keeping down prices.

But in the case of India and other under-developed countries, it was a question of ensuring food supplies to ward off famine, carrying on of major schemes of capital investment in food production and raising the standards of living of the rapidly increasing populations from their starvation levels.

Commonwealth circles said today that the exposition of the case for the under-developed countries was so able, that it was agreed that the 25 per cent cut of immediate dollar expenditure would not be applied to each country as a mathematical formula but the cuts would be spread over the entire sterling area on the principle of equality of sacrifice to bring about an overall saving of 25 per cent. --Router.

U.S. ARMS AID FOR CHINA PROPOSED

Washington, July 18. Republican Senator William Knowland said today a programme totalling some \$200,000,000 for arms aid to Nationalist China will be

Sources predict the Department's forthcoming White Paper on China will show a definite split in official thinking on Far Eastern policy.

Senators supporting increased assistance for Nationalist China said they will seek to bypass the Foreign Relations Committee by offering their China programme as an amendment to the forthcoming Arms for Europe programme. Democratic Senator Pat Mc-Carran said he will ask the Senate

to adopt his plan for an overall programme of assistance to "include arms aid, civilian relief and measures to stabilise China's inflated currency, But Senator Knowland indicated some Senators will offer a much more limited programme consisting of arms aid alone.

apparent determination of the Authorities to requisition Salle College us per statement made by the Press Relations Offcer published in the last issue of the "Sunday Herald."

Having taken into account the pros and cons that prompted the decision of the Military Authorities in their ultimate selection of La Salle College for requisitioning while their position is fully realised, their decision nevertheless is far from appreciable as resultant from the general hue and cry by all f concerned and in sympathy with the College. With reference to the penulti-

mate para of the PRO's report, we have yet to hear direct and/or publicly from the school Authorities of their acquiescence to such proposals and counter-offers from the requisitioning party. Hi is suggested that the school authorities refuse to voluntarily yield to whatever has to be offered under existinge circumstances and, i and when must, to surrender under alrong and emphatic protest publicly. As to the concluding jemarks in the PRO's statement what is of the best that is being offered when the requisitioning becomes effective, remains to be seen now and thereafter. - As Engarated, all parents should

immediately contact the school nuthorities to fight this move the College has not yet been taker over and no further time should be wasted. Your Petitioners most deeply appreclate that since the termination of hostilities a host of difficulties connected with the rehabilitation of the Colony have and to be overcome, but they feel that the time has now come when they may reasonably expect the oft-reiterated promises maile by His Majesty's Government that the inhabitants of the Colonies should enjoy a fuller share in the management of their own affairs.

On June 5 1949, Your Excellency made public the Draft Bill Progress, they quoted His of the Municipal Council Ordinance, 1949, and has graciously seen aft to allow a period of at least six weeks for the Colony to express its public opinions before decisive action would be taken. Your Petitioners respectfully essure Your Excellency that such regard for the present day trend towards true demogracy and Your Excellency's obvious desire to lead the people of Hong Kong towards responsible self-government are most deeply approclated by all concerned. Education Workers'

Proposals to secure better education for the children of the Colony's workers have been made by Government following discussions with the Management Committee of the Workers' Schools, it was officially announced yesterday.

The suggestions were made to meet some of the points raised in opposition to, the original plan in which Government had decided to take over the gehoofs.

'Arcoruing-to-en-official-apokesman the proposals include the reconstitution of the Managing Committee, retaining representatives of the workers but adding non-Government members who have had considerable experience in school management; approval for this new committee to re-register and control five of the existing schools and their children and teachers; transfer of children from the very unsuitable premises a new and better accommodation i their own neighbourhood.

In addition Government will provide and pay the salaries of fully qualified headmasters to supervise the re-registered schools and assist the Managing Committce in an advisory capacity on educational matters.

Function Of Committee

The functions of the Managing Committee will be to appoint teaching staff, to control finance and saturies, general organisation and discipline and to see that the schools are run in accordance with the provisions of the Education Ordinance.

The schools which will re-register under this Committee will be:-Saiwanho 'Street School, Juffce Road School, Bulkeley Street School, Portland Street (Nos. 251-7) School and the Mong Kok P.M. School.

The above arrangements provide for the continuance of five schools containing more than half the total number of children at present in the workers' schools controlled by a Committee on which the workers are well represented; no young child will have to travel further to school than it does now; very few changes in staff will be necessary and considerable improvement in culication is expected. In all, accommodation will be provided for 3,500 workers'

Air France Plans Extension Of Far East Service

The aerial network pattern of the Far East traced by an unprecedented number of operating airlines, is to be further developed with Air France extending its system far and wide over this area.

Said to be the biggest airway company outside of the Americas, Air France is about to string lines from its Far Eastern terminal at Saigon, Indo-China, to points in Japan, the Philippines and Australia.

The enlargement of this company out in the East began when two Skymasters were placed on the Hong Kong-Saigon run, beginning a regular service some time last

Appeal Against **Eviction Order**

The Apollo Book Company, of 67B Des Voeux Road Central, yesterday appealed at the Court of Appeal against the eviction order issued by Mr. V. J. L. d'Alton, Tenancy Magistrate, in May this year. The appellants, represented by Mr. B. A. Bernacchi instructed by Mr. J. M. d'Almada Remedios, Tenancy Tribunal's decision was against the weight of evidence and wrong in law.

The applicants in the Tribunal below-the present respondentsare Anderson Meyer and Company, Limited, of David House. As owners of the premises in question, they applied for the eviction of the Apollo Book Company on the grounds that the proprictor, Chan Kin-kung, in August 1947, to whom the premises had with possession of the premises without the consent in writing of

the applicants. The book company, however contended that when the premises were let to them in October 1945, the company was a partnership, in which Chan Kin-kung and one .Ping Pak-lin' wore partners. They also claimed that in June 1946, one Wu Guang-yaw became partner and had since then remained a tenant of the premises. Opponents claimed there was no ground for eviction.

Mr. D'Alton, however, held that there was no evidence that the company was a parthership when the premises were first let by the Yesterday's hearing of the ap-Deal was composed , mainly of
